

JAYA

MCGRATH AND I AM A PROGRAMMER*

Programming to me is the ink to a writer's pen. I love to code because it brings ideas to reality.

I look for opportunities that allow me to grow professionally as well as personally whether it be pushing my creativity with web designing or testing my knowledge by creating applications.

I am very driven to output the best quality I possibly can individually and in team settings.

WORKING EXPERIENCE

ANIMATE JA

SOCIAL MEDIA MANAGER '23 - '24

I was tasked with creating content for the company as well as ensuring the content was up to date with current trends. This opportunity taught me how to work well in team settings

KOSMIK STUDIO

FREELANCE WEBDESIGNER '22 - '23

I have worked with multiple clients, providing websites that represented their vision or company values. This has allowed me to gain a deeper understanding of design and user experience.
